

OPEN TALK ANNOUNCEMENT

19 July 2016

11:30 a.m

Fermion

Speaker:

Dr. Dibakar Roychowdhury

(VASP short term visitor to Prof. Rabin Banerjee)

Affiliation:

IIT, Kanpur

Title:

Gauge/String duality: Overview & Applications

Abstract:

I will talk about AdS/CFT duality in brief and discuss some of its applications. In particular I will elaborate how such a duality conjecture could be used to probe the underlying dynamics in various strongly correlated systems at finite temperature and density.
